Trunnion Mounted Ball Valves

Table of Contents

Introduction

Quality is our commitment, while competitive price and timely delivery is our promise.

From the beginning, the DHV name has become associated with quality in every step of our manufacturing process. For the past decades our customers worldwide have trusted us to provide them with consistent and reliable valve products in their most severe and critical service.

We at DHV are proud of our ability to meet the stringent requirements of Refining, Gas/Oil, Pipeline, Petrochemical and Power Plant.

DHV Ball Valves are designed, manufactured and tested to the latest manufacturing specifications of the American & International Standards Organizations. We welcome your challenges and look forward to serving your critical project needs.

DHV Figure Numbers

Ball Valves

Type

- 1 = Floating Ball Split Body, Full Bore
- 2 = Floating Ball Split Body, Reduced Bore
- 3 = Trunnion Ball Two-Piece Body, Full Bore
- 4 = Trunnion Ball Two-Piece Body, Reduced Bore
- 5 = Trunnion Ball Three-Piece Body, Full Bore
- 6 = Trunnion Ball Three-Piece Body, Reduced Bore
- 7 = Floating Ball One-Piece Body, Reduced Bore
- 8 = Small size Floating Ball valve. see*
- 9 = Top Entry Trunnion Ball Valves
- 0 = Three Way Ball Valves

- C3 = Trunnion Ball Valve, Fully Welded, Two-Piece Body, Full Bore
- C4 = Trunnion Ball Valve, Fully Welded, Two-Piece Body, Reduced Bore
- C5 = Trunnion Ball Valve, Fully Welded, Three-Piece Body, Full Bore
- C6 = Trunnion Ball Valve, Fully Welded, Three-Piece Body, Reduced Bore
- D = Rising Stem Ball Valves, Full Bore
- E = Rising Stem Ball Valves, Reduced Bore
- X = Special

Note: *For valve bore type note designated, For valve bore type not designated, add R for reduce bore, F for full bore. 8R is reduce bore small size ball valve, 8F is full bore small size ball valve.

Body Material

- 0 = ASTM A216 WCB
- 1 = ASTM A105
- 2 = ASTM A352 LCB
- 3 = ASTM A350 LF2
- 4 = ASTM A351 CF8M
- 5 = ASTM A182 F316
- 6 = ASTM A351 CF8
- 7 = ASTM A182 F304
- 8 = ASTM A890 4A
- 9 = ASTM A182 F51
- A = ASTM A352 LCC
- B = Inconel
- C = Monel
- D = Super Duplex S.S.
- E = ASTM A240 UNS N08926
- F = ASTM A216 WCC
- X = Special

Code

- B = Ball Valves
- L = Cryogenic Ball Valves
- M = Metal-to-Metal Seat Ball Valves

8" Ball Valve, Trunnion Ball,Three-Piece Body, Full Bore, Class 600LB, A105 Body & Adapter Raised Face Flanged End, with C.S.+ENP Trim and Nylon+Viton / Graphite Seat and Seal, Gear Operated, Inconel 625 Overlay, Single Piston Seat.

Example:8"-B5601F13-GO-I-SPE

End Connections

- M = NYLON-M
- C = PCTFE
- P = PAI
- X = Special

Operator

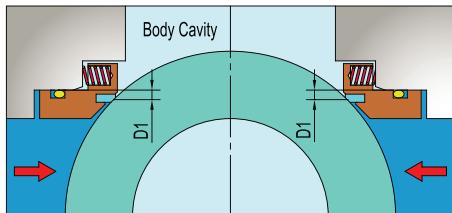

- NONE = Lever or Handwheel Operator
- CO = Chain Wheel Operator
- GO = Gear Operator
- BS = Bare Stem
- EM = Electric Motor Operator
- PA = Pneumatic Actuator
- HA = Hydraulic Actuator
- PH = Pneumatic-Hydraulic Actuator

Internal Coating

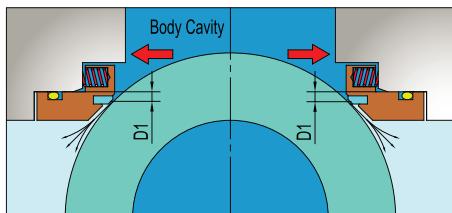

- None = No Coating
- P=Plasite 7159
- E = Enduro Bond
- I = Inconel 625 Overlay
- N = Inconel 825 Overlay
- D = Duplex SS Overlay

Seat Function

- None = Self Relieving Seat
- SPE = Single Piston Effect
- DIB-1 = DPE x DPE
- DIB-2 = SPE x DPE
- BB = Block and Bleed
- DPE = Double Piston Effect

Pressure acting upstream and/or downstream

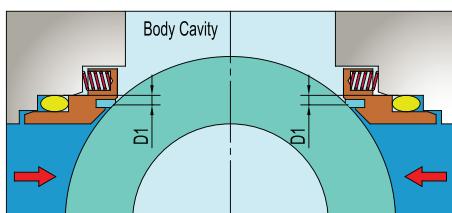

Pressure acting in the body cavity

Standard Seat Design (DBB) (Two Single Piston Effect (SPE) Seats)

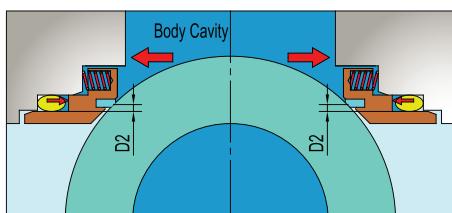

The DBB configuration is the most common seat configuration design for trunnion mounted ball valves, both upstream and downstream are single piston effect seats. During normal operation, upstream or downstream pressure in combination with the force of the seat springs, pushes the seat and the sealing surface against the ball creating positive shutoff on both sides of the ball for bi-directional seal.

As temperature increases, the pressure inside the ball cavity increases. As the pressure in the ball cavity exceeds the spring force plus the force created by the pressure from upstream or downstream side, the seat assembly "moves and releases or relieves" to the low pressure side of the valve, then reseats to the ball using the spring force and line pressure to create a positive seal.

The cavity pressure release is internal to the valve via either of the seats, and the customer can decide the final orientation of the valve accordingly.

Pressure acting upstream and/or downstream

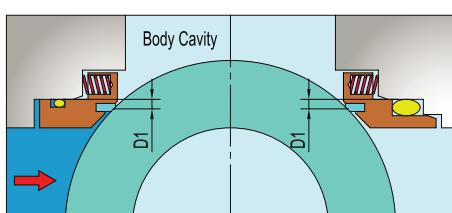

Pressure acting in the body cavity

Optional Seat Design (DIB-1) (Two Double Piston Effect (DPE) Seats)

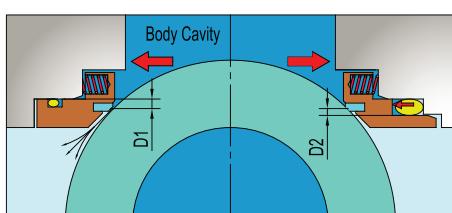

In DIB-1 style trunnion ball valves, the system pressure from the upstream side of the valve provides the primary energy required to provide the seating force for the upstream seat. The seat springs are also used to provide some seal force and these springs are primarily used for low pressure sealing.

The unique design of the DIB-1 style trunnions provides the ability for cavity pressure to be used to assist with the sealing of the downstream seat. When decreasing the downstream pressure to zero, the downstream seat will still seal using the energy from the cavity pressure.

The DIB-1 design provides positive seat sealing of at least one seat, even if one of the seats is damaged. DIB-1 style trunnion ball valves do not have a self-relieving function, so a liquid port will be needed to release body cavity pressure, as the drawing shown in page 5.

Pressure acting upstream

Pressure acting in the body cavity

Optional Seat Design (DIB-2) (One SPE Seat and One DPE Seat)

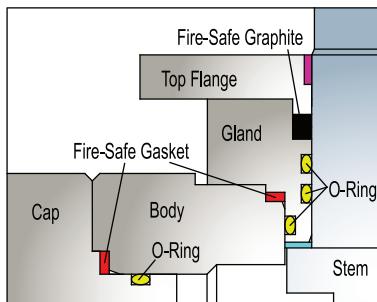

Generally, the DPE seat is placed on the downstream side of the DIB-2 valve, thus providing positive isolation on the downstream DPE seat and cavity relief via the upstream SPE seat.

In normal conditions, both the SPE seat and the DPE seat work in tandem incorporating cavity pressure to the downstream seat and seat spring force to provide dual positive sealing on both seat surfaces.

In case of cavity pressure build up, the upstream SPE seat relieves to the upstream side while the DPE seat maintains the sealing integrity.

DIB-2 valves do not need external cavity relief piping or relief systems.

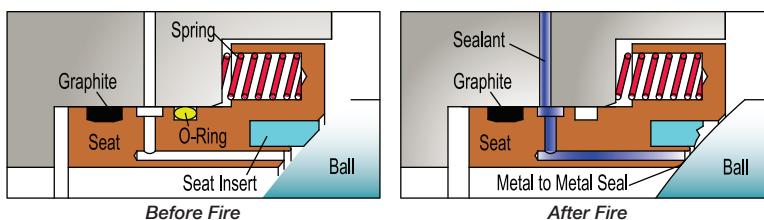

Note: The seat design can be changed from SPE to DIB-1 and DIB-2 without any internal valve machining. This is accomplished using simple seat change out kits. These kits are available when specified by the customer.

Fire-Safe Design

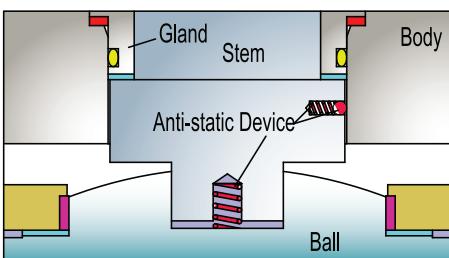

External leakage prevention

A gasket is designed in the body-cap and body-gland area and includes O-ring seals. Graphite packing is provided in the stem area and includes two O-ring seals. If an O-ring is destroyed by fire, the gasket and graphite packing will prevent external leakage.

Internal leakage prevention

If the soft sealing materials are damaged or destroyed by fire, the edge of the metal seat that is preloaded by the springs will make contact with the ball to create a closure. Special sealants can be injected into the seat and ball of valves equipped with injection fittings. Valves that do not have these fittings will seal utilizing the graphite packing.

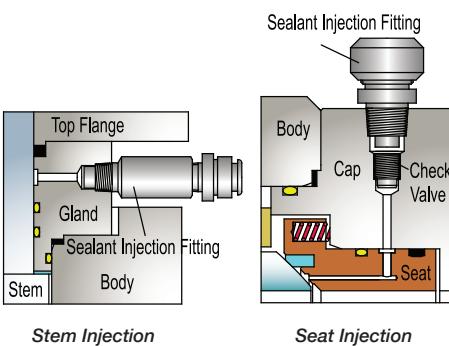

Blow-out Proof Stem

The stem is designed with a shoulder that is retained by the body preventing the stem from being blown out from internal pressure.

Anti-Static Device

The anti-static device is designed between the ball, stem, and body to maintain electrical continuity and avoid static charges.

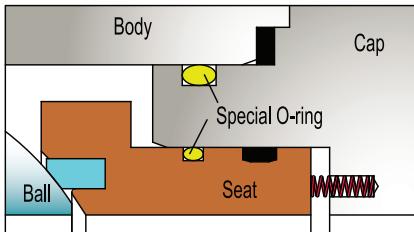

Emergency Sealant Injection System

Stem injection is provided on all DHV trunnion ball valves. Seat sealant/lubrication is also available, refer to the structure description for different valve series. The sealant injection system can be utilized in case of emergencies, O-ring damage, or seat sealing surface is damaged or requires lubrication. A second internal check valve is designed within the seat injection fitting to provide backup.

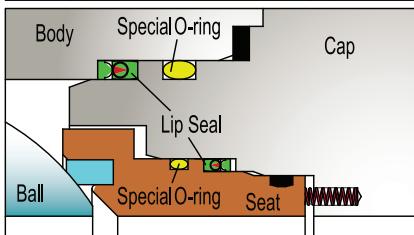

Design Features

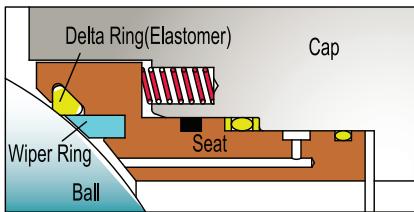

H₂S Service

DHV can provide material solutions including optional seat and seals for process applications that exceed the limitations of our standard materials.

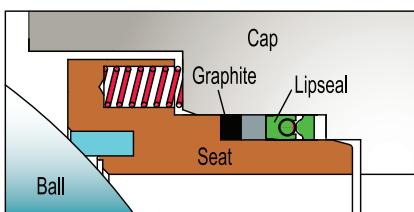

DHV has developed special Ultra High H₂S valve designs that include special seals, lip seal designs, internal overlays, and supplemental inspection and testing.

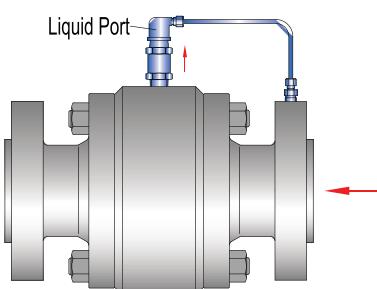

Delta Ring Seat Design (Optional)

DHV has developed an EDS (Elastomeric Delta Seat) trunnion. This design is specifically intended for gas/liquids and oil pipeline applications when the normal sealing and seating components such as Nylon, Devlon and HNBR may be compromised by the process conditions.

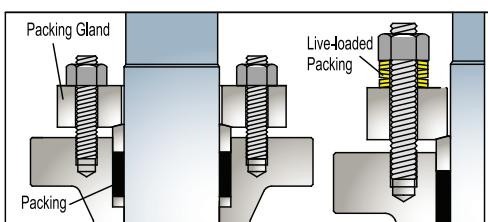

Lip Seal Design (Optional)

The lip seal is the spring-energized seal that includes an Elgiloy spring and PTFE jacket. It is effective in a wide range of applications, such as high resistance to corrosive chemical media, high sour gas, and low temperature or cryogenic service.

Liquid Port (Optional)

A liquid port is typically used with DIB-1 valves. With this liquid port, the body cavity is connected upstream to avoid an abnormal increase in cavity pressure. This design with the liquid port provides positive isolation downstream.

Adjustable Packing Design (Optional)

Adjustable packing can be provided where stem wear or temperature changes could impact the standard packing design. In situations where stem leakage may be caused by minor wear of the packing or temperature change, the bolts can be tightened to ensure sealing performance. The packing material can be graphite or PTFE V-packing.

A live-load packing design utilizing disc springs can also be provided for severe service in order to obtain a self-adjustment function.

Trunnion Mounted Ball Valves

Two-piece Cast Steel Body Ball Valves

Applicable Standards

Basic Design: **API 6D, ASME B16.34, API 608**

Compliance Is Optional From The Factory

Face to Face: **ASME B16.10, API 6D**

Flange End: **ASME B16.5 (up to 24"), ASME B16.47 series A (26" and above)**

Butt Welding End: **ASME B16.25**

Test and Inspection: **API 6D, API 598**

Fire-safe Test: **API 6FA or API 607**

Fugitive Emission Test: **ISO 15848-2**

Type Testing for FE: **ISO 15848-1, API 641**

Manufacturing to NACE latest version on request

CSA Z245.15 latest version compliance is available

Specifications

Size Range: **2" ~ 48"**

Pressure Range: **150LB ~ 2500LB**

End Connection: **Flanged end / Butt welding end**

Bore: **Full bore / Reduced bore**

Seat Piston: **Single piston / Double piston**

Operation: **Manual operation, Actuated operation**

Material: **Body: Carbon steel, Stainless steel, Duplex Stainless steel, etc.**

Trim: Carbon steel+ENP, Alloy steel+ENP, Stainless steel,

Duplex stainless steel, etc.

Isolation Valve Features: **DBB: Two SPE (Single Piston Effect) seats**

DIB-1: Two DPE (Double Piston Effect) seats

DIB-2: One SPE seat and one DPE seat

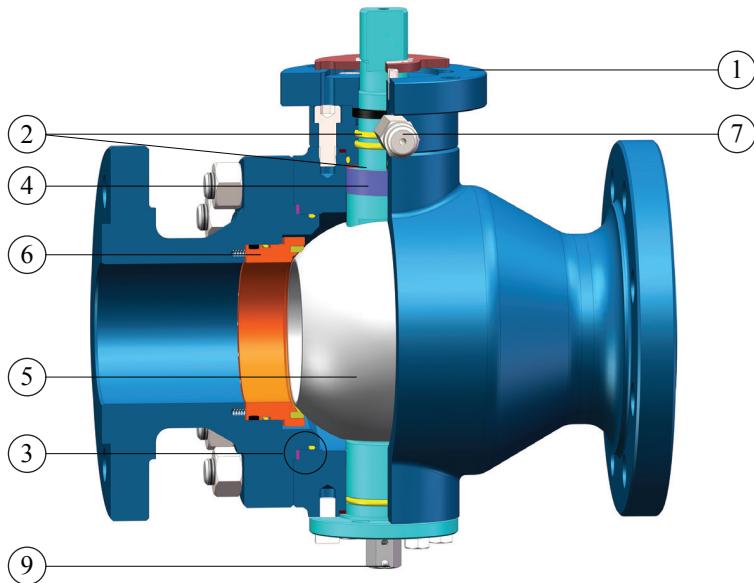

Note: Additional sizes and pressure classes are available upon request.

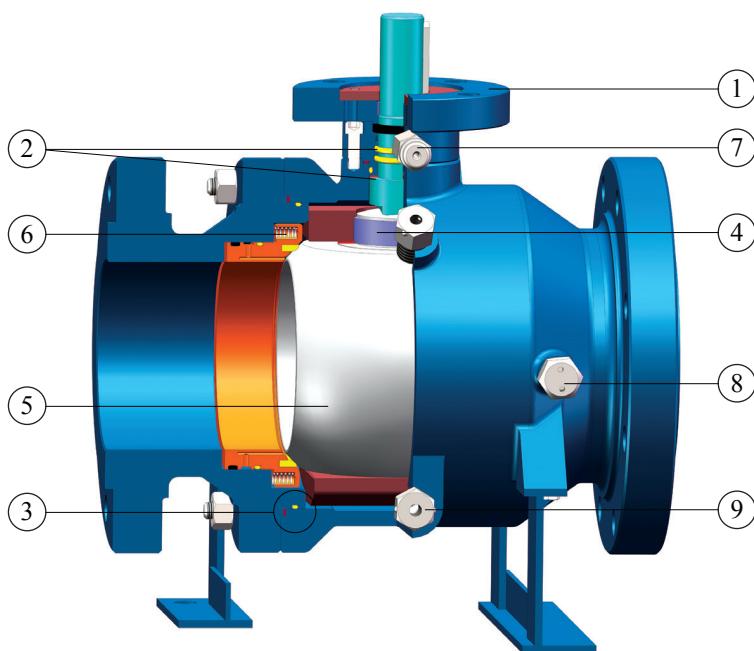

Trunnion Mounted Ball Valves

Two-piece Cast Steel Body Ball Valves

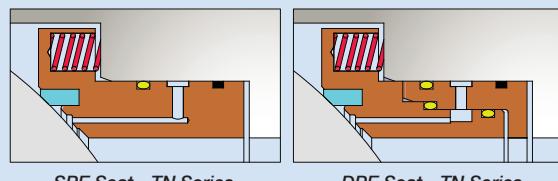

Typical Structure

Trunnion structure (For size 4" and below)

Bearing retainer structure (For size 6" and above)

Main differences between TB series and TN series

- **TB** series ball valves are designed only for DBB valves.
- **TN** series ball valves are designed for DBB and DIB valves. The primary advantage of TN series is the SPE seat and DPE seat can be interchanged without changing any other valve parts, including the valve body and cap.

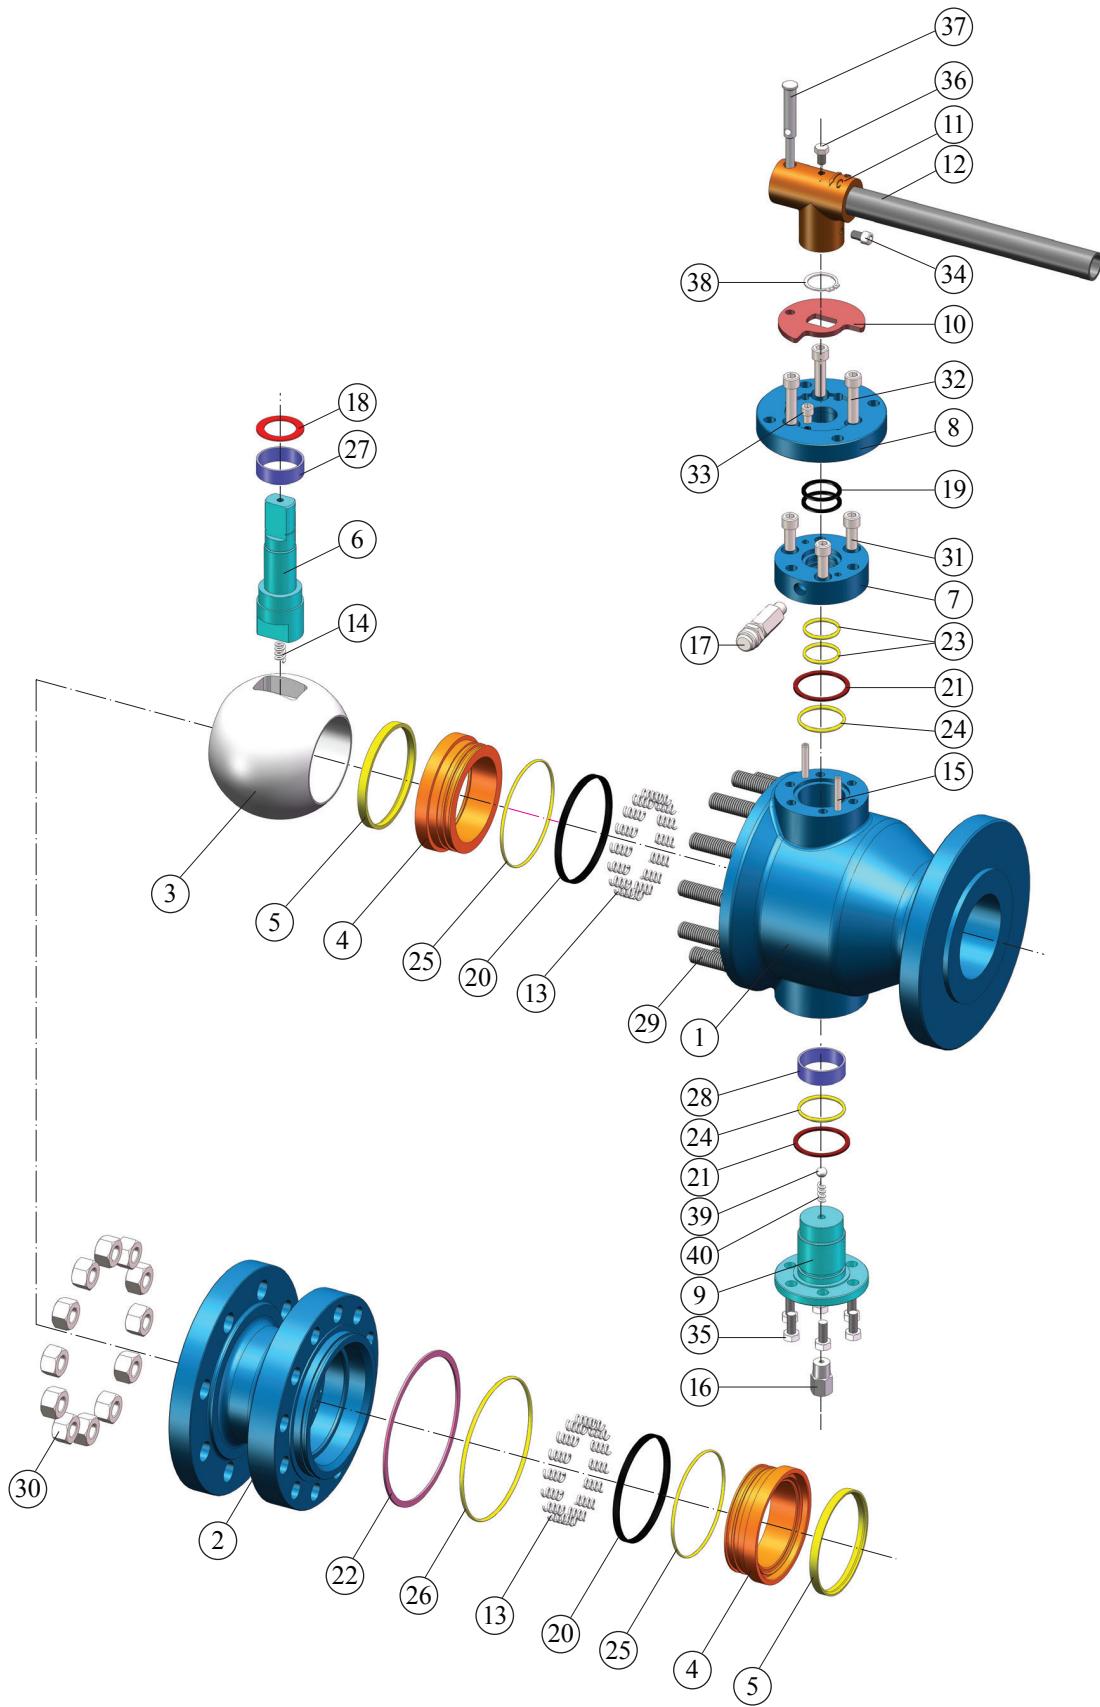

- ① ISO mounting pad for various actuators.
(Not applicable for TB series lever operated valves.)
- ② Anti-Blowout stem & double O-ring seals.
- ③ O-ring & gasket combination provides a tight seal.
- ④ Self-lubricating bearing reduces operating torque.
- ⑤ Smooth electroless nickel plated or solid S.S. ball for tight seal and low operational torque.
- ⑥ Spring loaded seats with secondary metal to metal fire-safe seal.
- ⑦ Stem injection fitting for lubrication and emergency sealant.
- ⑧ Seat injection fittings with internal check valves for lubrication and emergency sealant. DHV standard valve designs that include seat injection fittings is listed below.
- ⑨ Drain fitting for double block & bleed and on-line testing.

General Note: Structure shown in the illustration is typical, other configurations are available upon request.

Trunnion Mounted Ball Valves

Three-piece Forged Steel Body Ball Valves

Applicable Standards

Basic Design:	API 6D, ASME B16.34, API 608 Compliance Is Optional From The Factory
Face to Face:	ASME B16.10, API 6D
Flange End:	ASME B16.5 (up to 24"), ASME B16.47 series A (26" and above)
Butt Welding End:	ASME B16.25
Test and Inspection:	API 6D, API 598
Fire-safe Test:	API 6FA or API 607
Fugitive Emission Test:	ISO 15848-2
Type Testing for FE:	ISO 15848-1, API 641
Manufacturing to NACE latest version on request	
CSA Z245.15 latest version compliance is available	

Specifications

Size Range:	2" ~ 48"
Pressure Range:	150LB ~ 2500LB
End Connection:	Flanged end / Butt welding end
Bore:	Full bore / Reduced bore
Seat Piston:	Single piston / Double piston
Operation:	Manual operation, Actuated operation
Material:	Body: Carbon steel, Stainless steel, Duplex Stainless steel, etc.
	Trim: Carbon steel+ENP, Alloy steel+ENP, Stainless steel, Duplex stainless steel, etc.
Isolation Valve Features:	DBB: Two SPE (Single Piston Effect) seats DIB-1: Two DPE (Double Piston Effect) seats DIB-2: One SPE seat and one DPE seat

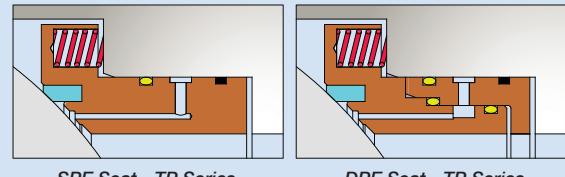

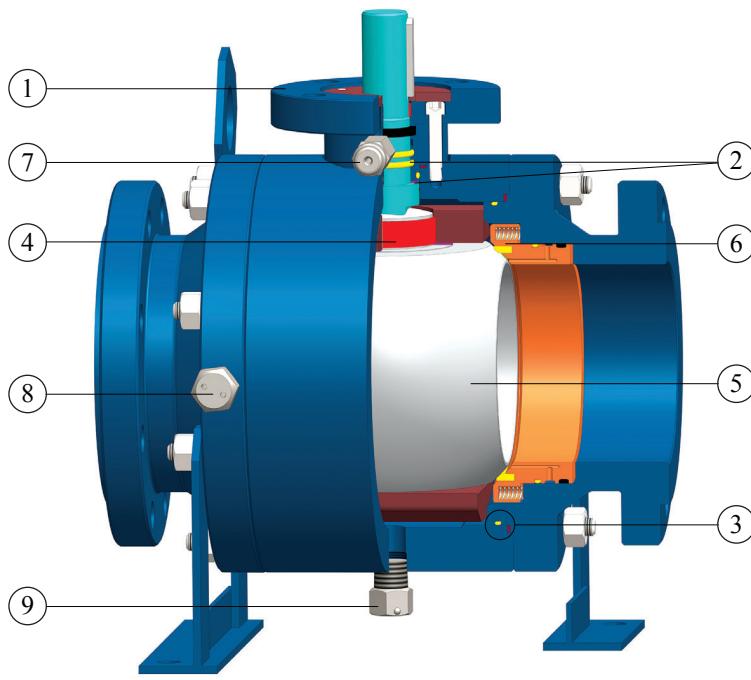

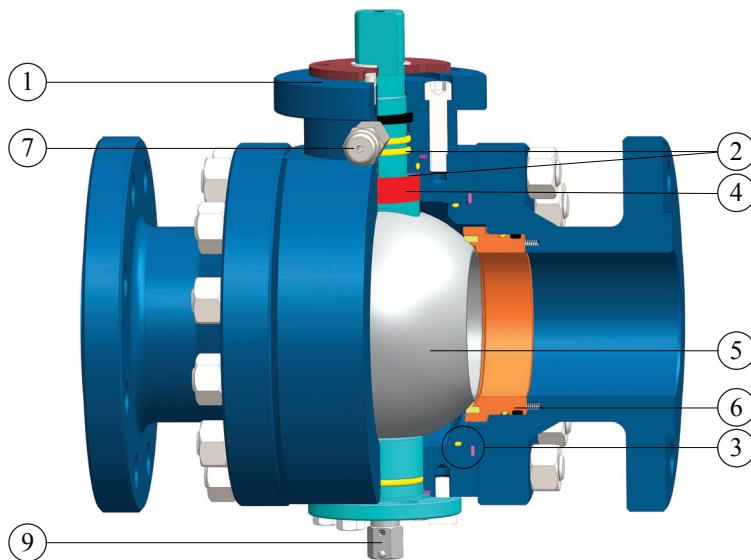

Note: Additional sizes and pressure classes are available upon request.

Trunnion Mounted Ball Valves

Three-piece Forged Steel Body Ball Valves

Typical Structure

Main differences between TC series and TP series

- **TC** series ball valves are designed only for DBB valves.
- **TP** series ball valves are designed for DBB and DIB valves. The primary advantage of TP series is the SPE seat and DPE seat can be interchanged without changing any other valve parts, including the valve body and cap.

- ① ISO mounting pad for various actuators.
(Not applicable for TC Series lever operated valves.)
- ② Anti-Blowout stem & double O-ring seals.
- ③ O-ring & gasket combination provides a tight seal.
- ④ Self-lubricating bearing reduces operating torque.
- ⑤ Smooth electroless nickel plated or solid S.S. ball for tight seal and low operational torque.
- ⑥ Spring loaded seats with secondary metal to metal fire-safe seal.
- ⑦ Stem injection fitting for lubrication and emergency sealant.
- ⑧ Seat injection fittings with internal check valves for lubrication or emergency sealant. DHV standard designs that include seat injection fittings is listed below.

Class Size	150LB	300LB	600LB	900LB	1500LB	2500LB
2"						
3"	"N"					
4"			"O"			
≥ 6"				"Y"		

Note:

"N" - Design cannot be fitted with seat injection fittings.

"O" - Seat injection fittings are not standard, but can be provided as an option.

"Y" - Seat injection fittings are included as the standard design.

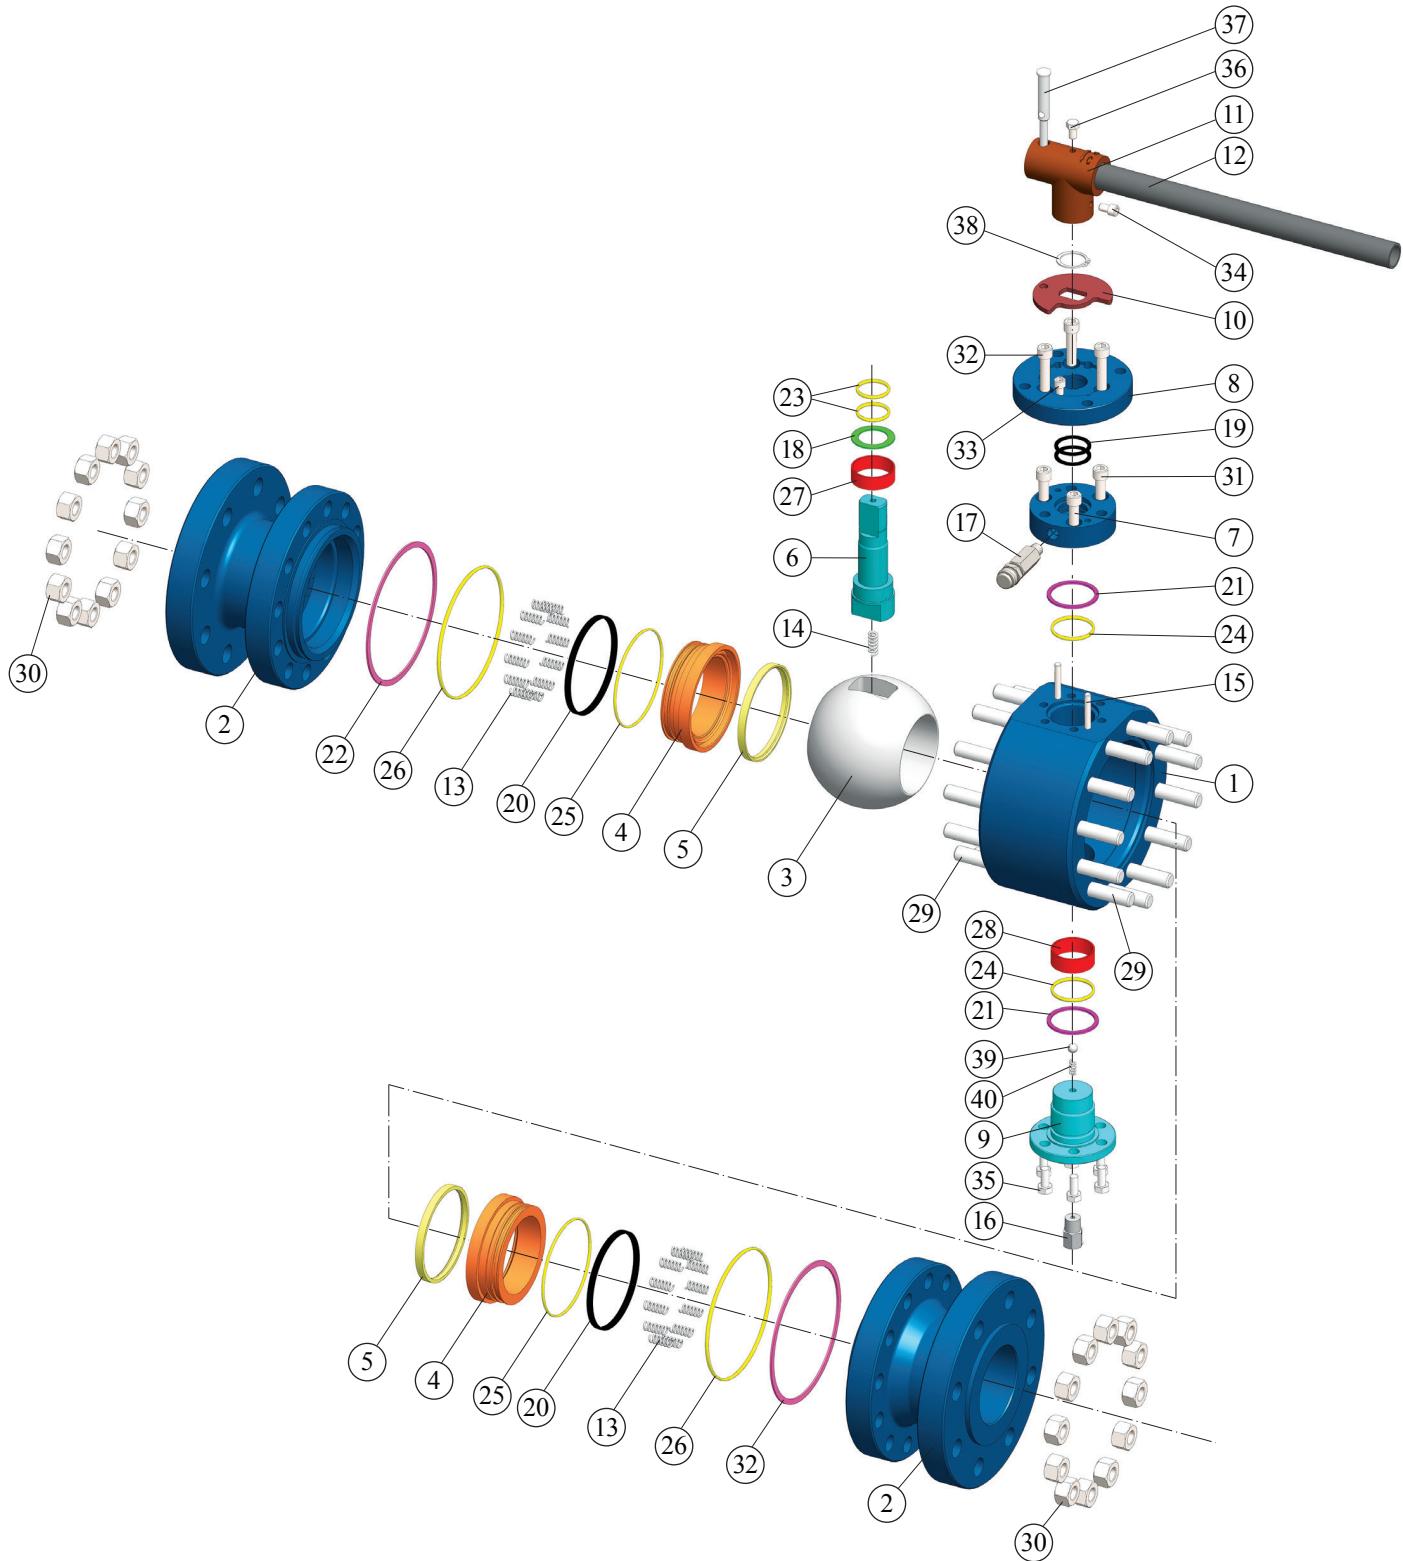

- ⑨ Drain fitting for double block & bleed and on-line testing.

General Note: Structure shown in the illustration is typical structure, other configurations are available upon request.

Trunnion Mounted Ball Valves

One-piece Cast Steel Body Top Entry Ball Valves

Applicable Standards

- Basic Design: **API 6D, ASME B16.34, API 608**
Compliance Is Optional From The Factory
- Face to Face: **ASME B16.10, API 6D for class ≥ 600LB. For 150LB and 300LB, In Compliance With Dimensions of 600LB**
- Flange End: **ASME B16.5 (up to 24"), ASME B16.47 series A (26" and above)**
- Butt Welding End: **ASME B16.25**
- Test and Inspection: **API 6D, API 598**
- Fire-safe Test: **API 6FA or API 607**
- Fugitive Emission Test: **ISO 15848-2**
- Type Testing for FE: **ISO 15848-1, API 641**
- Manufacturing to NACE latest version on request
- CSA Z245.15 latest version compliance is available

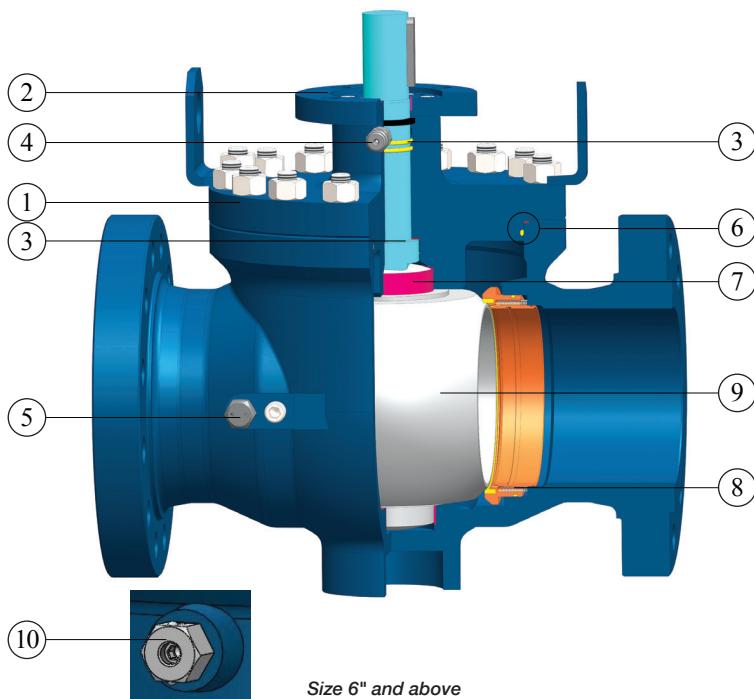

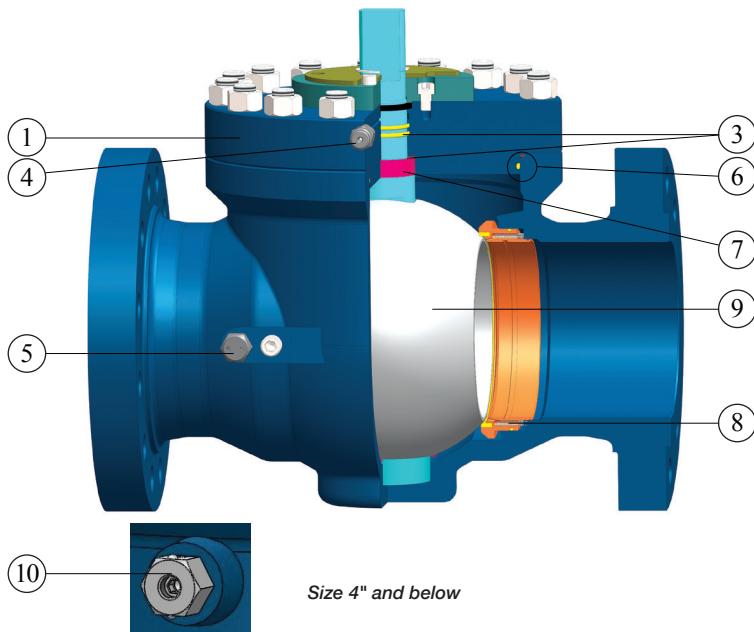

Specifications

- Size Range: **2" ~ 48"**
- Pressure Range: **150LB ~ 2500LB**
- End Connection: **Flanged end / Butt welding end**
- Bore: **Full bore / Reduced bore**
- Seat Piston: **Single piston / Double piston**
- Operation: **Manual operation, Actuated operation**
- Material: **Body: Carbon steel, Stainless steel, Duplex Stainless steel, etc.**
Trim: Carbon steel+ENP, Alloy steel+ENP, Stainless steel, Duplex stainless steel, etc.
- Isolation Valve Features: **DBB: Two SPE (Single Piston Effect) seats**
DIB-1: Two DPE (Double Piston Effect) seats
DIB-2: One SPE seat and one DPE seat

Note: Additional sizes and pressure classes are available upon request.

Typical Structure

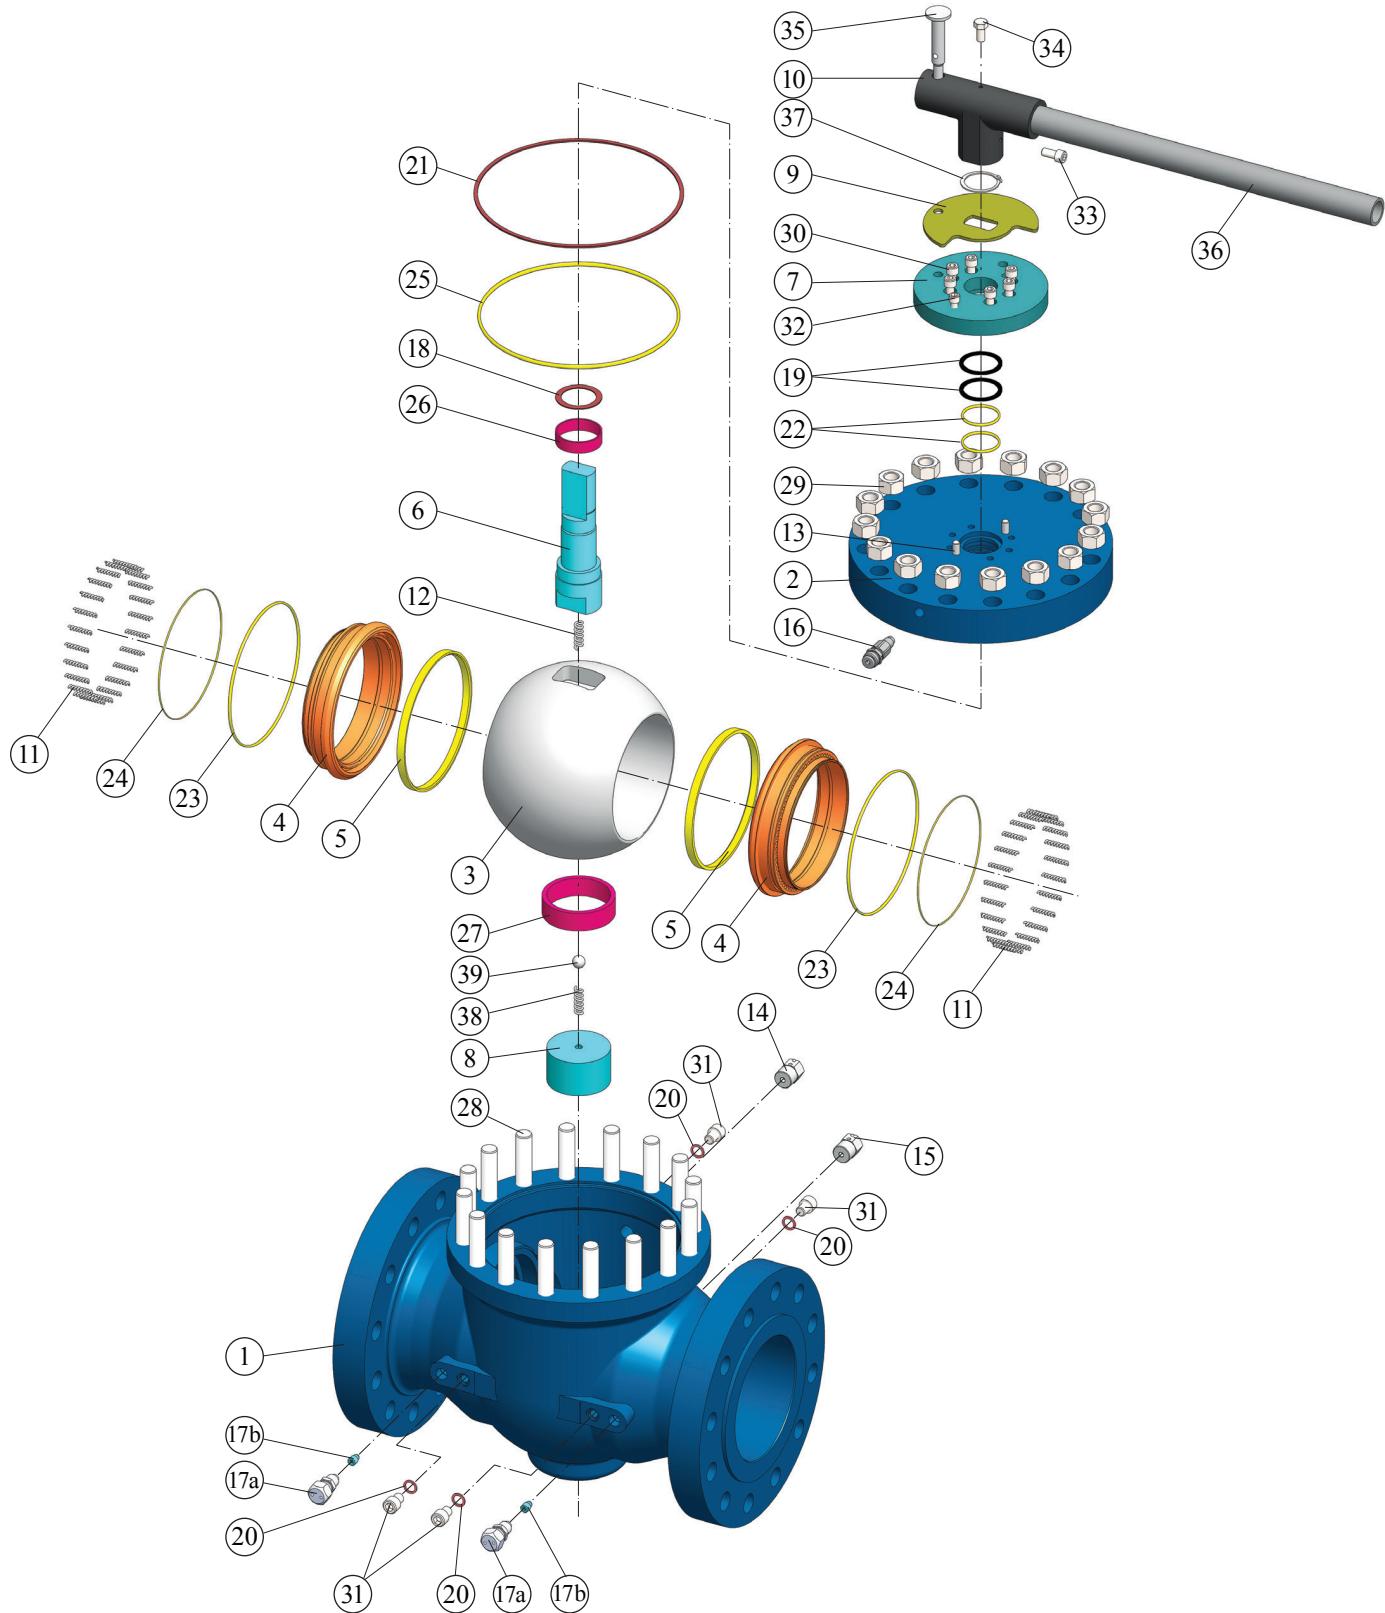

- ① Top entry design offers easy on-line maintenance.
- ② ISO mounting pad for various actuators.
(Not applicable for lever operated valves.)
- ③ Anti-Blowout stem & double O-ring seals.
- ④ Stem injection fitting for lubrication and emergency sealant.
- ⑤ Seat injection fitting with internal check valve for lubrication and emergency sealant.
- ⑥ O-ring & gasket combination provides a tight seal.
- ⑦ Self-lubricating bearing reduces operating torque.
- ⑧ Spring loaded seats with secondary metal to metal fire-safe seal.
- ⑨ Smooth electroless nickel plated or solid S.S. ball for tight seal and low operational torque.
- ⑩ Drain fitting for double block & bleed and on-line testing.

General Note: Structure shown in the illustration is a typical, other configurations are available upon request.

Trunnion Mounted Ball Valves

Fully Welded Ball Valves

Applicable Standards

Basic Design: **API 6D, API 608, ASME B16.34**
Face to Face: **ASME B16.10, API 6D**
Flange End: **ASME B16.5 (up to 24"), ASME B16.47 series A (26" and above)**
Butt Welding End: **ASME B16.25**
Test and Inspection: **API 6D, API 598**
Fire-safe Test: **API 6FA or API 607**
Fugitive Emission Test: **ISO 15848-2**
Type Testing for FE: **ISO 15848-1, API 641**
Manufacturing to NACE latest version on request
CSA Z245.15 latest version compliance is available

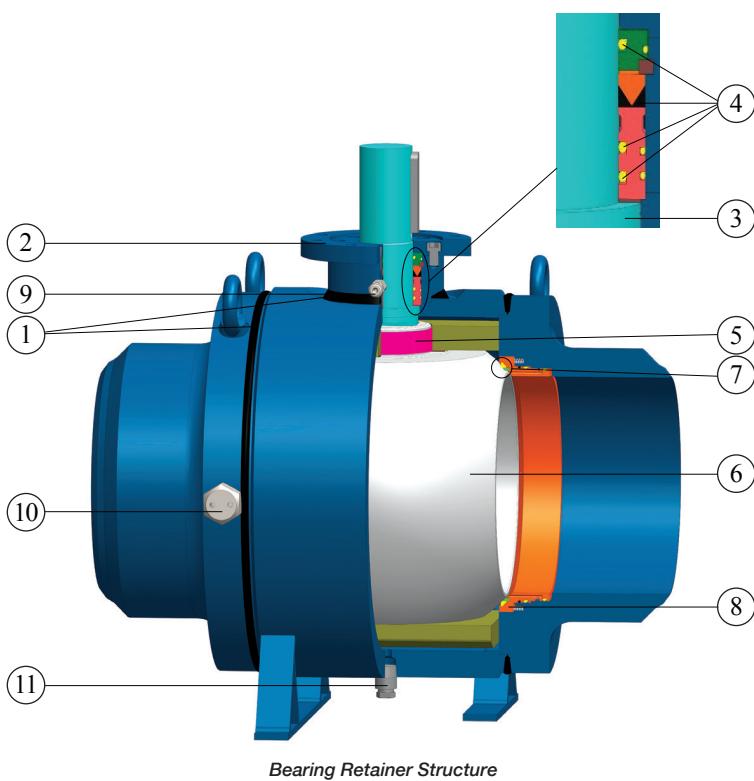

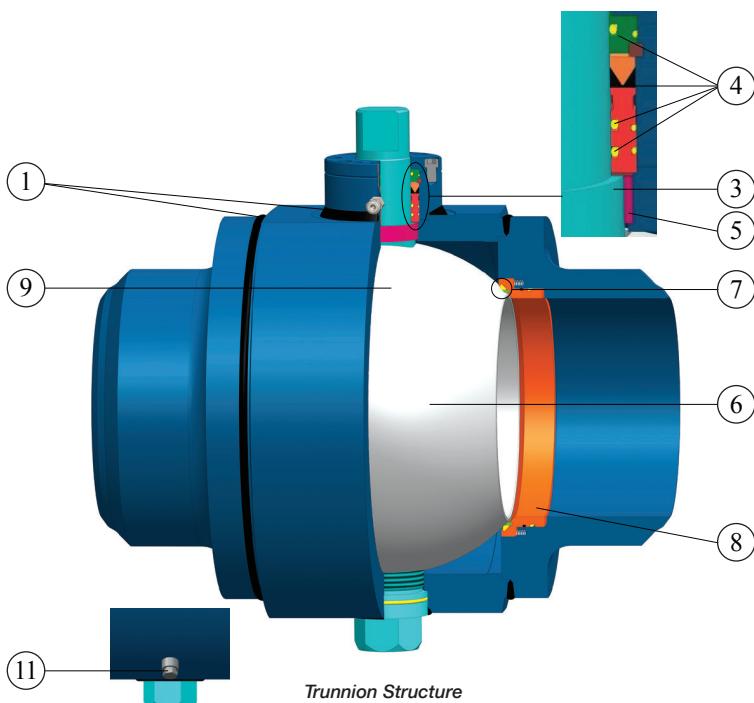

Specifications

Size Range: **2" ~ 32"**
Pressure Range: **150LB ~ 2500LB**
End Connection: **Flanged end / Butt welding end**
Bore: **Full bore / Reduced bore**
Seat Piston: **Single piston / Double piston**
Operation: **Manual operation, Actuated operation**
Material: **Body: Carbon steel, Stainless steel, Duplex Stainless steel, etc.**
Trim: Carbon steel+ENP, Alloy steel+ENP, Stainless steel, Duplex stainless steel, etc.
Isolation Valve Features: **DBB: Two SPE (Single Piston Effect) seats**
DIB-1: Two DPE (Double Piston Effect) seats
DIB-2: One SPE seat and one DPE seat

Note: Additional sizes and pressure classes are available upon request.

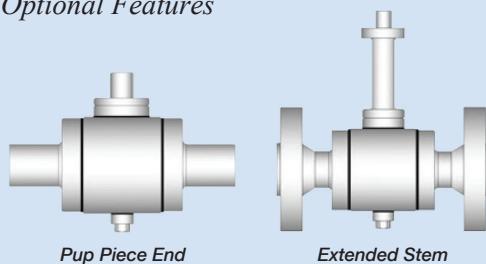

Typical Structure

- ① Fully welded body and cap. Option for welded gland.
- ② ISO mounting pad for various actuators. (Not applicable for lever operated valves.)
- ③ Anti-Blowout stem.
- ④ Triple level stem seal design including fire-safe graphite packing for compliance to low fugitive emission requirements.
- ⑤ Self-lubricating bearing reduces operating torque.
- ⑥ Smooth electroless nickel plated or solid S.S. ball for tight seal and low operation torque.
- ⑦ Delta ring seat design is the most widely used seat structure of fully welded ball valves. Other seat designs are available.
- ⑧ Spring loaded seats with secondary metal to metal fire-safe seal.
- ⑨ Stem injection fitting for lubrication and emergency sealant.
- ⑩ Seat injection fittings with internal check valves for lubrication and emergency sealant. The seat injection fitting is a standard design for valves $\geq 6"$.
- ⑪ Drain fitting for double block & bleed and on-line testing.

General Note: Structure shown in the illustration is typical structure, other configurations are available upon request.

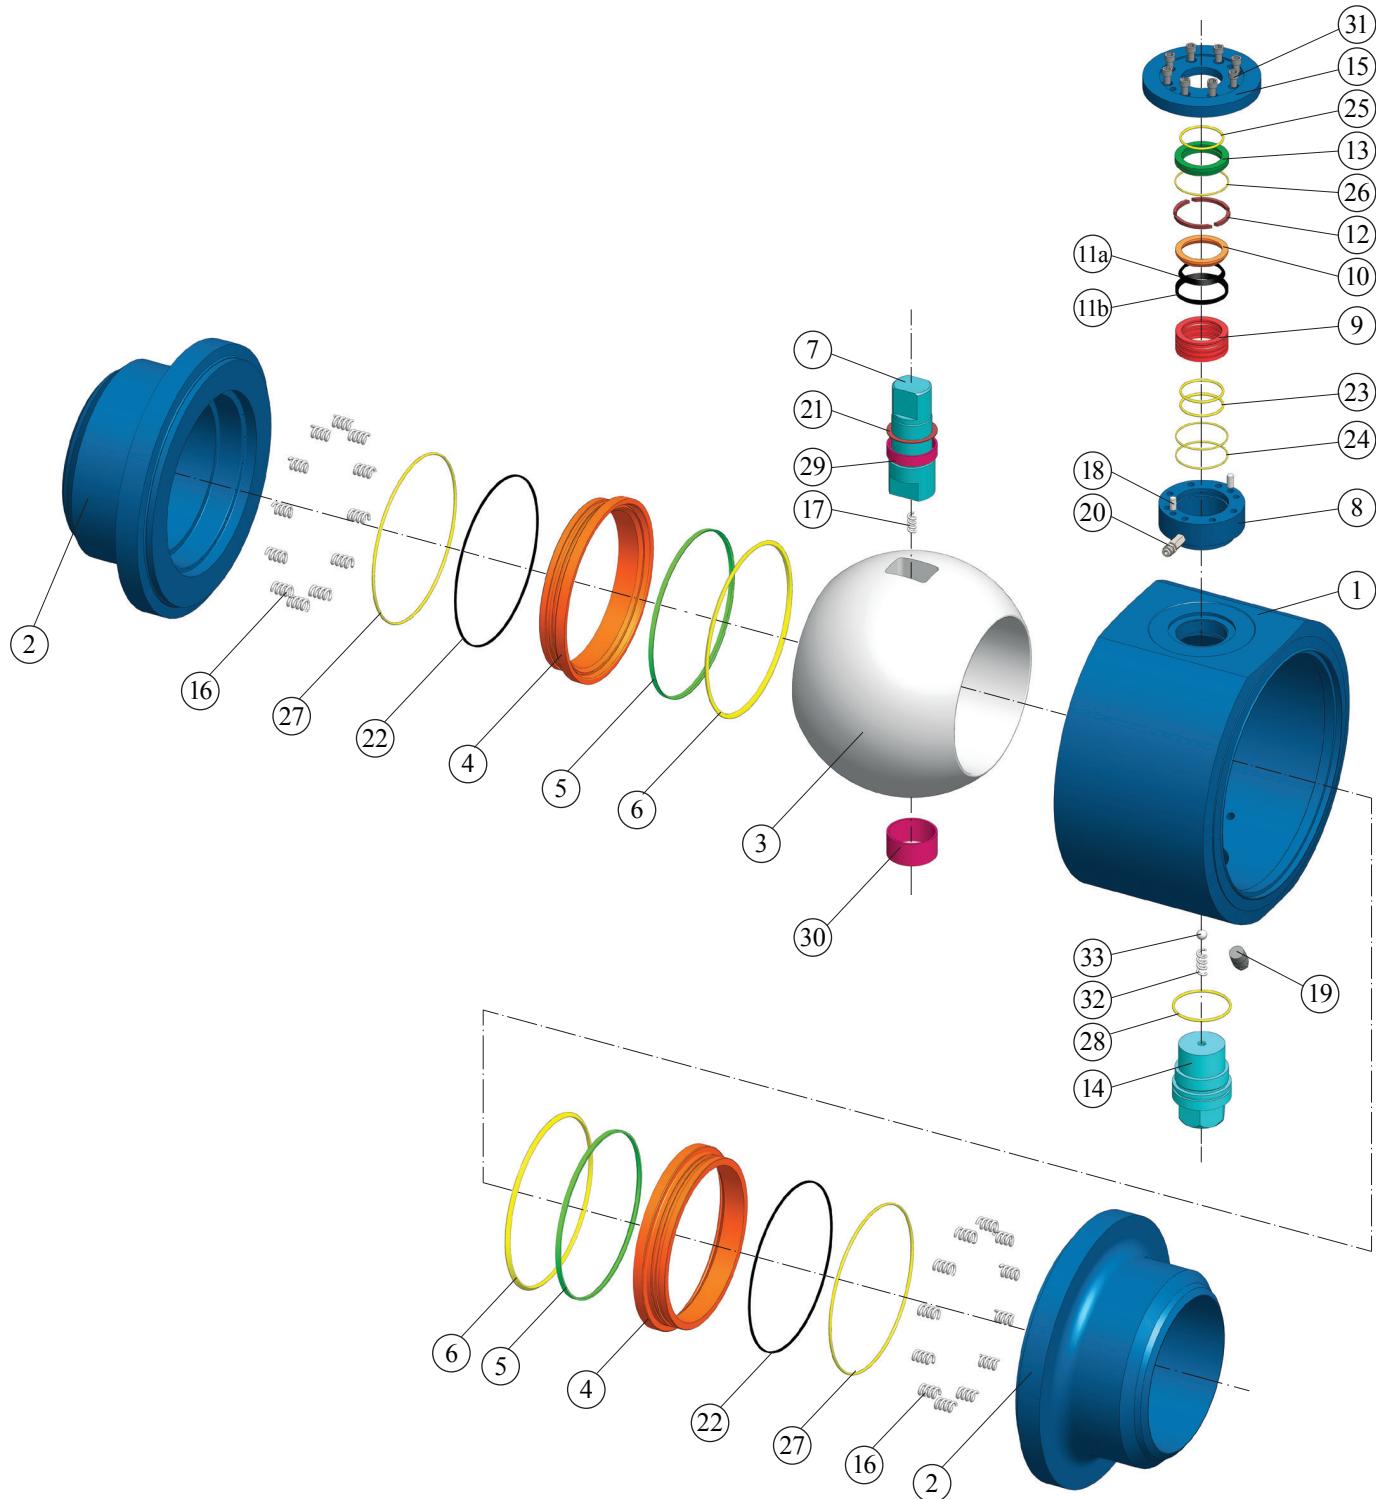

Optional Features

Trunnion Mounted Ball Valves

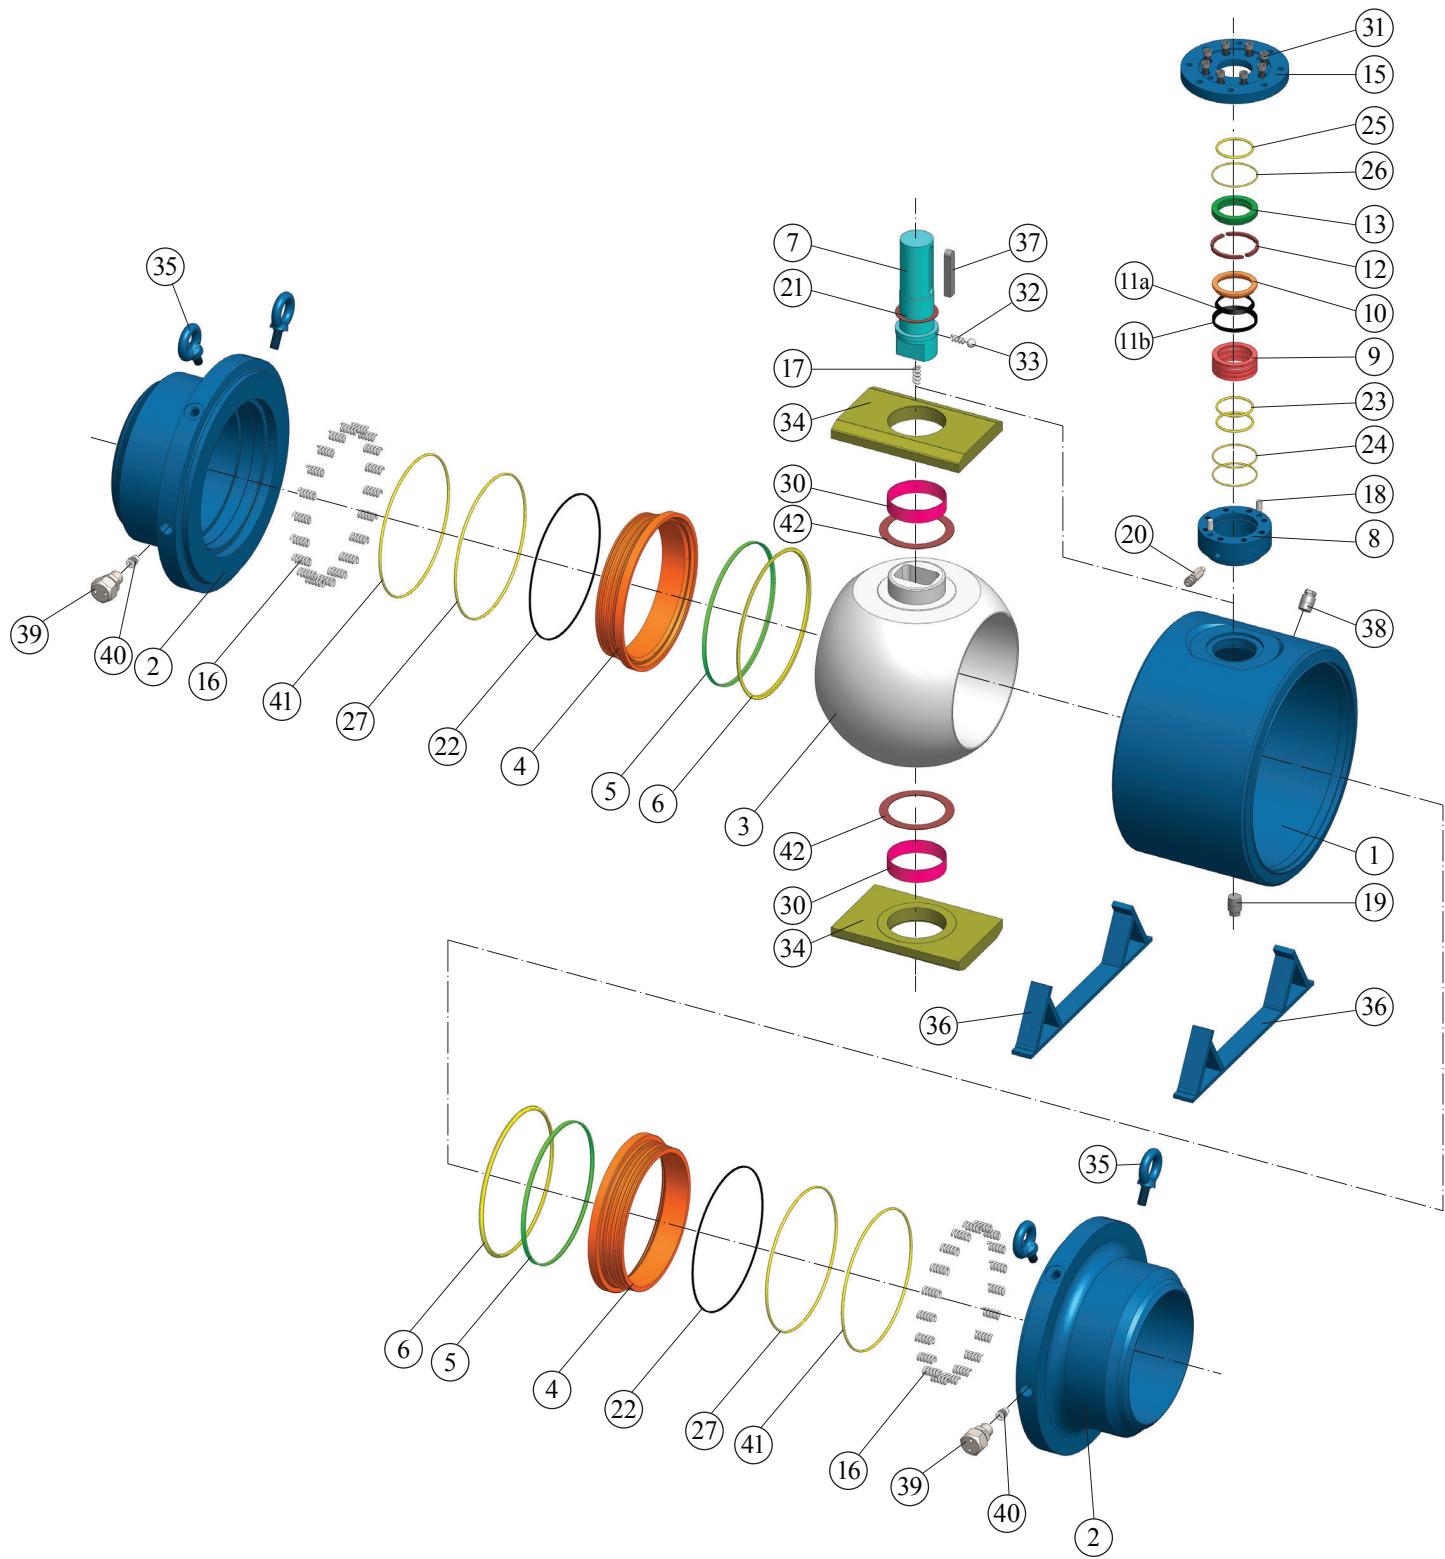

Fully Welded Ball Valves, Trunnion Structure

Trunnion Mounted Ball Valves

Fully Welded Ball Valves, Bearing Retainer Structure

Terms & Conditions

1. DEFINITIONS

- (a) "The CONTRACT" - The General Conditions of Orders together with COMPANY'S quote and any exhibits, attachments and other documents incorporated by reference.
- (b) "The PRODUCT'S" - valves and related products and services as well as their packaging that form the subject-matter of the CONTRACT.
- (c) "The COMPANY" - DHV Industries, Inc. or DHV Valve Company, Inc. or alternatively any affiliated company named in COMPANY'S quotation.
- (d) "The CUSTOMER" - The individual, firm, partnership, company or other party with whom the Company contracts.
- (e) "FORCE MAJEURE" - Any cause or circumstances (including but not limited to, act of God, fire, storm, flood, drought, earthquake, malicious damage, shortage of material, manufacturer's inability to provide the Product, embargo, riot, strike, look-out, trade dispute, civil disturbance, war, compliance with any law or government order, rule or direction or any other event or accident) beyond the reasonable and direct control of COMPANY.

2. SCOPE

- (a) These General Conditions set out the standard terms on which the COMPANY supplies PRODUCTS to the CUSTOMER. Accordingly, these General Conditions apply to all quotations and sales unless otherwise agreed in writing.
- (b) The legality, validity, and enforceability of other clauses in these General Conditions will not be affected if one of the clauses is, or becomes illegal, invalid, or unenforceable.
- (c) We reserve the right to institute changes in material, design and specification without notice.

3. QUOTATIONS AND ORDERS

- (a) Unless otherwise expressly stipulated, all of the COMPANY'S quotations and prices are subject to change without notice, and to availability. Prices are valid only for the duration indicated in the quotation and are subject to change without notice.
- (b) Any written or oral purchase order received from the CUSTOMER by the COMPANY ("Order") shall be interpreted as a written acceptance of the COMPANY'S offer to sell, and shall be filled in accordance with the terms and conditions of the sale set forth herein. The terms and conditions of the Company's proposal (if at all any) shall prevail over any conflicting or different terms in CUSTOMER'S orders unless the CUSTOMER notifies the COMPANY in writing of its objections thereto within the earlier of the date of shipment of the Product or fifteen (15) days from receipt of COMPANY'S General Conditions. CUSTOMER'S standard terms of purchase will not be considered as a counter-offer to COMPANY'S terms and conditions of sale. The COMPANY will not be bound by conflicting purchasing conditions or reservations made by the CUSTOMER even if the COMPANY does not explicitly contradict the conditions or reservations.
- (c) No order in pursuance of any quotation or otherwise shall be binding on the COMPANY unless and until such an order is accepted by the COMPANY. The COMPANY may reject any order in whole or part. A contract between the COMPANY and CUSTOMER is finalized once the COMPANY issues a telephonic, electronic, or written order confirmation to the CUSTOMER or ships the Product to the CUSTOMER. Except as otherwise specifically provided herein, the Order is the final and complete expression of the agreement between the parties, setting forth the entire agreement between the parties regarding this transaction and including all promises and representations both express and implied. Any matters not contained herein, or otherwise referenced or incorporated herein, are not part of the Order.
- (d) Subject to the specific procedures for changes to the Order, none of the terms and conditions contained herein may be added to, modified, superseded, or otherwise altered except by a written instrument specifically referencing the affected provision of the Order signed by the President or Vice President of the COMPANY.

4. PRICES

- (a) All prices shown are in U.S. dollars and are F.O.B. COMPANY'S shipping point, unless otherwise expressly agreed to by COMPANY.
- (b) Prices exclude any duties, federal, state or local taxes or other government charges and delivery costs, which the CUSTOMER must pay unless the law specifically provides that the COMPANY must make such payment in which case the CUSTOMER shall reimburse the COMPANY for such payments as part of the purchase price. All prices include the COMPANY'S

standard packing, but not pallets or crating for export goods.

5. PAYMENTS AND LICENSES

- (a) Payment must be made in the currency specified in COMPANY'S invoice.
- (b) The CUSTOMER must pay the full invoice amount before the shipment from the date of the invoice unless otherwise agreed in writing. The COMPANY is entitled to charge interest on overdue payments at the greater of the following two rates: (a) 1.5% monthly or (b) 2% annually above the current monthly base rate of the COMPANY'S bank. In no event shall the interest rate be higher than the maximum rate permitted by applicable law.
- (c) In addition to exercising its rights at common law or under statute, the COMPANY is entitled to terminate the CONTRACT by written notice to the CUSTOMER if the CUSTOMER is in material breach of its obligations under the CONTRACT or any other agreements with the COMPANY. The CUSTOMER is in material breach:
- If it fails to meet its liabilities when they fall due;
 - If it seeks a composition with its creditors;
 - If all or part of its property is subject to receivership; or
 - If a petition for liquidation, winding-up or administration is filed in respect of the CUSTOMER.
- (d) The CUSTOMER is not entitled to withhold, set off or deduct claims against the COMPANY from an amount that it owes the COMPANY under the CONTRACT or other agreement with the COMPANY.
- (e) The COMPANY is obligated to deliver a PRODUCT only if the CUSTOMER has made due payment of all amounts that it owes to the COMPANY at the date of delivery under the CONTRACT or other agreement with the COMPANY. The COMPANY is entitled to suspend delivery of a PRODUCT if the CUSTOMER is in default without this affecting the COMPANY'S other rights under the CONTRACT or other agreement with the CUSTOMER. The COMPANY is not obligated to resume deliveries until the CUSTOMER has paid all overdue amounts, including all expenses and accrued interest.

- (f) It is the CUSTOMER'S exclusive responsibility to obtain all licenses, exchange control documents and other consents needed for the import and use of the PRODUCTS as well as for payment of the PRODUCTS. The CUSTOMER will not be discharged from his obligations under these General Conditions because he fails to obtain a license or other consents.

6. DELIVERY AND FORCE MAJEURE

- (a) While the COMPANY will endeavor to deliver the PRODUCTS by any date or within any period agreed upon, such dates and periods are estimates only given in good faith and the COMPANY will not be liable for any failure to deliver by such date or within such a period. Time for delivery shall not be of the essence of the CONTRACT.
- (b) Should the COMPANY be delayed in or prevented from making the delivery of the PRODUCTS due to Force Majeure, the COMPANY may terminate the CONTRACT or suspend the Order without incurring any liability for any loss or damage arising there from, but without prejudice in any such case to rights accrued to the COMPANY for deliveries already made.
- (c) Unless otherwise agreed to in writing by the COMPANY, the COMPANY shall deliver the PRODUCTS by the means most convenient to the COMPANY to the address or addresses specified by the CUSTOMER at the time of placing the Order or (in the event that the CUSTOMER fails so to specify an address) to an address at which the CUSTOMER resided or carries on business. The PRODUCTS are considered to be delivered when they are physically handed over to 1) the CUSTOMER, 2) the CUSTOMER'S agent or a person that the CUSTOMER has authorized to take delivery, or (3) the carrier, regardless of who pays shipping costs. The COMPANY shall be entitled to add to the contract price a reasonable charge for packaging, delivery and insurance. Off-loading will be at CUSTOMER'S expense.
- (d) The CUSTOMER is obligated to pay all costs that the COMPANY incurs because of the CUSTOMER'S failure to take delivery either 1) on the date stated in the invoice or the COMPANY'S confirmation, or 2) when the PRODUCTS are ready, if the COMPANY has notified the CUSTOMER in writing of their readiness and the CUSTOMER has not taken delivery within seven days or any period to which the parties agree.
- (e) If the COMPANY is responsible for delivery, the CUSTOMER must thoroughly inspect the PRODUCTS sent at the COMPANY'S risk. The CUSTOMER is to notify the COMPANY in writing immediately of loss, damage or shortage of PRODUCTS. If the CUSTOMER does not receive the PRODUCTS on the agreed date of delivery, it is to notify the COMPANY within 48 hours of the agreed date of delivery. The COMPANY disclaims all liability, and the CUSTOMER waives its rights of recovery, under this provision unless the CUSTOMER'S information is sufficient to

Terms & Conditions

allow the COMPANY to make a valid claim against the carrier of the PRODUCTS for their loss or damage.

(f) If the CUSTOMER is responsible for delivery, the COMPANY will not be responsible for delays or failure to deliver by the carrier set up by the CUSTOMER or due to causes beyond the COMPANY control. Delivery of material to a common carrier shall be considered delivery to the Buyer. Claims for loss or any damage to material in transit shall be filed by the Buyer direct with the carrier. Claims for any shortage, corrections or deductions must be made in writing within 48 hours after receipt of goods.

7. PASSING OF RISK AND TITLE, CANCELLATION AND RETURNS

The COMPANY'S liability for the PRODUCTS passes from the COMPANY to the CUSTOMER on the earlier of the following two dates: 1) the date when the PRODUCTS are delivered to the CUSTOMER, the CUSTOMER'S agent, or a person that the CUSTOMER has authorized to accept delivery, or 2) the agreed date of delivery, if the CUSTOMER fails to take delivery as required.

(a) Under the CONTRACT.

(b) The COMPANY remains the owner of the PRODUCTS until it receives full payment for all PRODUCTS whether or not the PRODUCTS are delivered to the CUSTOMER. If the CUSTOMER sells the PRODUCTS to a third party before the COMPANY receives full payment, the proceeds of the sale shall first apply to pay all amounts due to the COMPANY. The COMPANY or its representative is entitled to recover or resell the PRODUCTS and to enter the CUSTOMER'S premises for that purpose, without this affecting its other rights; if the CUSTOMER has not paid the full purchase price or if insolvency proceedings are commenced against the CUSTOMER.

(c) Purchase Orders once placed by CUSTOMER and accepted by COMPANY can be cancelled only with COMPANY'S written consent and upon terms which will save COMPANY from loss. No PRODUCTS may be returned for credit or adjustment without written permission from COMPANY'S officer authorized to issue such permission.

(d) All sales are final. This means that the CUSTOMER is not entitled to credit for returned PRODUCTS whether or not the CUSTOMER has made a complaint or a claim. If the Company expressly agrees in writing that the COMPANY will credit the CUSTOMER for returned PRODUCTS, the CUSTOMER must return the PRODUCTS promptly, carriage-paid, and in the COMPANY'S opinion in good condition to receive the credit. If the COMPANY expressly agrees in writing that the CUSTOMER can return the PRODUCTS, cancel order or change order, the CUSTOMER will be charged for work performed, based on the following schedule. All freight for return or cancelled/changed goods shall be prepaid by CUSTOMER.

- Twenty Five (25%) percent of price on stock items.
- Fifty (50%) percent of price of stock items ordered in quantities which exceed normal inventory levels.
- Twenty Five (25%) percent of price prior to drawing submittal on made to order items.
- Forty (40%) percent on drawing approval, but prior to start of castings.
- Seventy (70%) percent during casting cycle, dependent on the state of completion.
- One Hundred (100%) percent on castings that are not standard materials used by COMPANY in daily sales; i.e., Stainless Steel, Duplex, Nickel, etc.
- Eighty (80%) during machining and assembly operations, this is dependent on the state of completion.
- One Hundred (100%) percent after final assembly and test.
- Special Product Orders: or non standard products are not subject to any schedule level of cancellation, except on such terms as COMPANY may specify on application only.

8. WARRANTY AND LIMITATIONS OF LIABILITY

(a) As to all PRODUCTS sold hereunder, the COMPANY expresses no warranties whatsoever but only assigns to CUSTOMER all transferable warranties and remedies granted by the manufacturer of such PRODUCTS to which COMPANY is entitled and CUSTOMER agrees to look solely to such manufacturers with regard to claims and remedies relating to such PRODUCTS. THE COMPANY SPECIFICALLY DISCLAIMS ALL WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND SATISFACTORY QUALITY. THE COMPANY MAKES NO WARRANTIES AND REPRESENTATIONS, AS TO QUALITY, CAPABILITIES, OPERATIONS, NONINFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS, PERFORMANCE AND SUITABILITY OF THE PRODUCTS.

(b) LIMITATION OF LIABILITY. CUSTOMER'S EXCLUSIVE REMEDY AGAINST COMPANY FOR DEFECTS IN THE PRODUCTS IS THE MANUFACTURER'S WARRANTY SET FORTH IN SECTION 8 (a). THE PARTIES AGREE THAT UNDER NO CIRCUMSTANCE SHALL THE

COMPANY HAVE ANY LIABILITY WHATSOEVER FOR ANY CLAIM ARISING FROM OR RELATING TO THE ORDERS OR THE PRODUCTS FOR AN AGGREGATE AMOUNT IN EXCESS OF THE INVOICED PRICE FOR THE PRODUCTS.

(c) The COMPANY shall not be liable for any damage resulting from delays, failure of the PRODUCTS, loss of profit or revenues, loss of time or loss of use, cost of capital, diminution of goodwill, or claims of CUSTOMER'S customers.

(d) IN NO CIRCUMSTANCES WILL THE COMPANY BE LIABLE FOR ANY CONSEQUENTIAL, SPECIAL, PUNITIVE OR INDIRECT LOSS OR DAMAGE WHATSOEVER.

(e) The COMPANY is not liable if the CUSTOMER'S use of the PRODUCTS infringes on a third party's patent rights.

(f) Any exclusions or limitations of liability in this CONTRACT in favor of the COMPANY are agreed to be extended for the benefit of all COMPANY'S and/or individuals within the COMPANY'S group of COMPANIES. The CUSTOMER agrees in the appointment of the COMPANY as its agent or trustee solely for the extension of the benefit of the exclusions and limitations of liability. All duties, liabilities and obligations that would otherwise result from this agency are expressly excluded.

(g) The COMPANY warrants the PRODUCTS provided to the original CUSTOMER, not any third party, for a period of one year after date of shipment, that PRODUCTS will be free from defects in materials and workmanship under proper and normal installation and use. Any claim for defect goods should be by written notice to the COMPANY immediately upon discovery. NO warranty shall apply to PRODUCTS which has been modified or changed in design or function, misused, or improperly maintained. The COMPANY shall be able to inspect claimed defects at original CUSTOMER's facility to determine its obligation. Without written authorization of COMPANY, any repair labor or material is not allowed. No PRODUCTS may be returned without written permission from COMPANY.

9. SPECIFICATION, INSTRUCTIONS AND/OR DESIGN

If PRODUCTS are modified to a specification, instruction or design supplied by CUSTOMER or any third party on behalf of CUSTOMER, then:

(a) The suitability and accuracy of that specification, instruction and/or design will be CUSTOMER'S responsibility.

(b) The CUSTOMER will indemnify COMPANY against any infringement or alleged infringement of any third party's intellectual property rights including but not limited to patent, design right, registered design, trademark, trade name or copyright and any loss, damage or expense which it may incur by reason of any such infringement or alleged infringement in any country, and

(c) The CUSTOMER will indemnify COMPANY against any loss, damage or expense in respect of any liability arising in any country by reasons of the PRODUCTS being made to such specification, instruction or design.

10. CHOICE OF LAW AND JURISDICTION

(a) The laws of the State of California, including the Uniform Commercial Code, shall govern this CONTRACT. Jurisdiction and venue shall be the Superior Court of Kern County, Bakersfield, California. However, the CUSTOMER expressly agrees that the COMPANY may take action in another jurisdiction to obtain security for the COMPANY'S claims under the CONTRACT.

(b) The CONTRACT constitutes the entire agreement between the COMPANY and the CUSTOMER concerning the supply of the PRODUCTS. The CUSTOMER agrees that he has no other rights of recourse to the COMPANY other than those expressly stated in these General Conditions. The General Conditions apply whether or not the CUSTOMER has a cause of action because the COMPANY or its representative has acted negligently.

11. ATTORNEY'S FEES

In the event of any litigation or arbitration or any quasi-judicial or administrative proceeding involving the parties hereto to enforce any provision of this Agreement, to enforce any remedy available upon default hereunder, or seeking a declaration of the rights of either party hereunder, the prevailing party shall be entitled to recover from the other such attorney's fees and costs as may be reasonably incurred, including the costs of reasonable investigation, preparation and professional or expert consultation incurred by reason of such litigation, arbitration or proceeding. Sums actually expended in the prosecution or defense of any litigation, arbitration or proceeding within the meaning of the foregoing sentence shall be prima facie evidence of reasonable attorneys' fees, costs and disbursements.

Seeking a Great Name in Valve Technology
